time and after a pleasant journey, we spent a few days very p'easantly court house at Las Cruces and couamong old friends and thence went to Las Vegas N. M., where we met and large dealer in hardware, who Vegas, Hot Springs.

HOT SPRINGS.

These springs, about forty in number were made known to fame in 1846, and the United States army and used the springs for sanitary purposee. The building erected by the United States army was made of adobe and it continued to be used for a hospital as late as 1862. Then eame a straggling crowd civilians until in 1879, the first hotel was erected. Shortly after this the January 1884, this structure was burned, and soon after the most magnificent hotel in the west "The Pheonix" was erected. It was built of stone, has 250 rooms, elegantly furnished, has it own plant and manufactures its own electric lights, surrounded by balconies, considered fireproof and has a water main which leads from reservoir which is let into the solid rock of the bill top and holds nearly a million gallons of pure water. The manager, Chas. C. Niebuhr, is a gentleman in every sense of the word and every depa ment shows his skill and ability. The clerk, Mr. Bucher, was formerly a resident of Sedalia.

The views from the Pheonix are magnificent and nature seems to have exhausted herself in the perfection of her scenery.

Indeed it may be said that we enjoyed every minute of our stay at the reluctantly.

In leaving the San Marcial station and the Rio Grande river, we entered upon a barren plain, which stretched toward the south for a distance of pinety miles,

This plain is called the Jornado del Muerio ("the journey of queath") and from its history, related to us while visiting the beautiful Mesilla valley, a more appropriate name could not be found. Like the !celebrated "Bridge of Sigbs", in Venice, the plain has literally been a journey of death. TWO MEN KILLED.

They Were Tramps and of Course Unknown.

A collision between a freight train and a switching outfit in the yards at Pleasant Hill, on the Missouri Pacific, Friday night about half past nine o'clock, was reported yesterday morning. It seems that the switch- Chas. ing train was at work in the west end of the yards, and had pulled out on a siding to permit Third 127, coming east to pass. The switched train was not sitogether clear off the main track, and the eas werd bound train struck the protruding cars on the siding. Some of the freight trains loads were derailed and atter the ground had been examined it was discovered that two tramps who were stealing a ride, had been killed in the accident. They were as a matter of course unknown to the railroad men. Their bodies were taken in charge by the coroner of Cass county, and an inquest held, yesterday. The result of the inquiry has not reached us yet.

Rheumatism Can be Cured.

It has baffled the skill of our best physicians and there are to-day more men, women and children suffering from this terrible disease than ever before, and the opinion seems universal that it is incurable, but this is a mistaken idea for it can be cured by using as directed Hibbard's Rheumatic Syrup and Strengthening Plasters. Prepared by Rheumatic Syrup Co., Jackson, Mich.; price \$1.00 per bottle or six bottles for \$5.00; or, we will send it to any address on receipt of price. W. E. BARD, Druggist.

On the way to the Pen.

Sheriff Raker, of Johnson county, accompanied by City Marshal Ed Morrison, of Warrensburg, passed through on the Missouri Pacific yesterday morning having in charge several prisoners, destined for terms in the penitentiary.

The prisoners were Edward Truder, sent down for two years for horse stealing, John Martin for the same offense, two charges, two years on each, this being his third term in the prison; Charles Washington, colored, two years for house breaking; Patrick Sullivan, two years for petit larceny. This is Pat's fourth experience as an inmate of the pen,

Sheriff Raker and Marshal Morrison will re-urn from the stats capital to-morrow.
